### **SUMMARY**

Web developer with experience building complete frontend applications using modern web technologies. Background in structured, high-accountability environments, now focused on creating clear, usable interfaces and shipping reliable web solutions. Interested in roles that value usability, accessibility, and practical problem-solving.

### **SKILLS**

Frontend: HTML, CSS, JavaScript, TypeScript

Frameworks & Tools: Angular, React, Node.js, Git, GitHub

Web Concepts: Responsive design, routing, component-based architecture, REST APIs

Deployment: GitHub Pages, CI/CD workflows

UX & Quality: Accessibility fundamentals, usability-focused design, clear documentation

### **PROJECTS**

#### Personal Portfolio (Angular)

- Built and deployed a responsive portfolio site using Angular and TypeScript
- Implemented client-side routing, reusable components, and GitHub Pages deployment
- Focused on clarity, usability, and maintainable project structure

Tech: Angular, TypeScript, HTML, CSS, GitHub Pages

#### Web Development Coursework Projects — Bellevue University

- Developed multiple frontend applications as part of a structured web development curriculum
- Applied modern JavaScript, framework fundamentals, and REST API integration
- Emphasized clean structure, functional requirements, and iterative improvement

Tech: HTML, CSS, JavaScript, TypeScript, Angular, Node.js

### **EXPERIENCE**

#### Independent Contractor — Security & Training (2019–Present)

- Worked on short-term contracts requiring discretion, adaptability, and independent execution
- Operated in high-trust environments with minimal supervision
- Transitioned focus toward technology and software development while completing formal education

#### Team Leader — U.S. Army (2nd Battalion, 75th Ranger Regiment) (2011–2019)

- Led and trained small teams in high-accountability, time-critical environments
- Planned and executed complex operations requiring coordination, risk management, and adaptability
- Mentored junior personnel and enforced standards under pressure
- Served in specialized roles requiring precision, independent decision-making, and attention to detail

### **EDUCATION**

Bachelor of Science in Web Development

Bellevue University — Expected Summer 2026
